

# Keepsake Memory Box

Making a keepsake box is an opportunity for you to create your own special storage box. This special box will help you to keep all your favourite photographs, drawings and memories in one place. It is important to take the time to find all the treasures you want to keep in your memory box.

Once you have found all your treasures and put them in your keepsake box, you will need to find a safe and special place to store your box.

You may want to look at the box a few times a day or once a week, so you need to make sure you know where it is. If you have younger brothers or sisters, you may need to take extra care to keep it safe from them.

A keepsake box is a good way to remember someone and keep all their treasures safe. For example, a photograph that they used to carry with them, a necklace or ring they used to wear or a special ornament they had.

Always ask an adult before you take anything to put in your memory box.

A memory box template is provided. You can make it personal to you and the person you want to remember. You can do this by decorating the box with beads or painting it in a special colour. However you decide to decorate your box is up to you. Ask the adult you are with for some craft materials and some special time to do this.

You might like to talk about the person and share the memories and the reasons why you are putting these things into your memory box with the adult you are with.

If the adult you are with is part of your family, they may want to put things in the box as well. If you want to keep this box special to you, then the adult could create their own memory box and talk about all the things they are going to put in their special box.
